

## Connected students, Engaged learners Guided Notes

1. The brain loves to know \_\_\_\_\_ and \_\_\_\_\_.
2. Learning is about \_\_\_\_\_ & \_\_\_\_\_. Through  
c \_\_\_\_\_ e \_\_\_\_\_.

### Teachers are brain changers!

3. ACEs are  
C \_\_\_\_\_ U \_\_\_\_\_ T \_\_\_\_\_ S \_\_\_\_\_
4. It affects the b \_\_\_\_\_, the b \_\_\_\_\_, and the m \_\_\_\_\_.
5. Learning is not optimal during f \_\_\_\_\_ or f \_\_\_\_\_ stress  
response.
6. ACEs affects learning skills like e \_\_\_\_\_ f \_\_\_\_\_  
s \_\_\_\_\_, critical for learning.
7. Connection is \_\_\_\_\_.
8. Connection activates the \_\_\_\_\_ of our \_\_\_\_\_.

### Connection bathes the brain with Happy Hormones!

9. Connection improves \_\_\_\_\_.

10. Connection Increases:

S \_\_\_\_\_

W \_\_\_\_\_

E \_\_\_\_\_

A \_\_\_\_\_

T \_\_\_\_\_

11. Mirror neurons = e \_\_\_\_\_

12. Practice makes p \_\_\_\_\_.

**Brain principles:**

- Safety optimizes learning
- The connections made on the outside, build neural network connections on the inside.
